PHILMONT MOBILE RADIO CLUB

THE Blurb

February 1985

W3RQZ • W3TKQ • W3QV

SPECIAL SERVICE CLUB

WE HAVE WORD FROM HIS FRIEND IN THE CORNER AK21, IS LOOKING FOR OTHER PROJECTS TO FILL SOME OF HIS SPARE TIME!

VOLUME XXXV THE BLURB Number 02

THE BLURB is published monthly by and for the members of The Phil-Mont Mobile Radio Club, Inc. Our purpose is to promote Amateur Radio in general and Mobile Radio in particular. Copying and quoting is permitted with a credit line. We gladlyexchange publications with other clubs and requests should be addressed to the Editor. **THE BLURB** subscriptions are available to non-members for $6.50 per year and should be addressed to the Editor.

EDITOR - Woody Haldeman, W3PST

The Phil-Mont Mobile Radio Club, Inc., meets on the first Monday(mostly) of every month at 8:00 p.m. in the Franklin Institute, 21st St. & Ben Franklin Pkwy.

ALL VISITORS WELCOME ! !

DEADLINE - To be assured of current publication, all copy must be in the hands of the EDITOR by the 15th of the month or at the Board of Directors' Meeting, whichever is earlier.

Sam's CORNER

Of Castles, Dragons & Knights

IN THE NEXT FEW ISSUES, I WILL GIVE YOU A LITTLE ON YOUR FAMILY NAMES IN HISTORY, SOME GENEOLOGY AND SOME ON HERALDRY. MOST OF YOU ARE OF EUROPEAN ORIGIN, FROM PLACES THAT MAY SURPRISE YOU, AND THE ORIGIN OF YOUR NAME HOLDS THE SECRET OF THE PAST, AND IN MANY CASES, YOU WONT KNOW YOUR OWN NAME. ONLY THE HIGH SPOTS, THE MOST SIGNIFICANT, WILL BE GIVEN, IT COULD TAKE A LIFE TIME OF RESEARCH TO GO BEYOND THAT.

PREZ SEZ

W3SRU

I am pleased to see that a number of Phil-Monters are volunteering for the "VE" program. This is the type of new club activity that we should be looking for, and I will do everything possible to support it.

Congratulations to those participating!

MID-MONTH DATES

The following is the Mid-Month meeting schedule for 1985. Please speak to Gil if you can offer your QTH for one of the open dates.

PHIL-MONT's VOLUNTARY EXAMINER PROGRAM

By AK2I

As all of you know by this time, the club has decided to proceed with its contribution to the Amateur Society, the Volunteer Examiner (VE) testing program, which will be sponsored by the ARRL and, of course, our club, along with the Franklin Institute. As of December 1984, all of this was prompted by the FCC's decision, because of budget problems, to allow the Amateur community to administer its own testing program from Novice up to and including the Extra class licenses.

At the present time there are eleven of our members who have volunteered their services and have applied for VE status with the ARRL. But as of this writing, none of us has heard or received any notification at all. The big hangup is that they are waiting for the printer to ship some 5000 copies of the Examiner's Manual. All volunteers will need this manual in order to properly receive accreditation from the League headquarters.

How will it all work? It's as simple as this:

1. One member of the VE team will act as a coordinator and correspondent with the ARRL HQ.

2. We must advise HQ. of the city and state in which a test will take place. They will not need to know the exact location of the test.

3. We will be required to buy our testing materials from a League source and will be required to collect the fee of $4.00 per testing session from each applicant that has properly submitted a form 610.

4. We will be required to retain our own expenses incurred from the testing session and submit the balance to the League office.

5. According to FCC rules, we must make proper Public Announcements of this session and every session by one of several methods:

   a. Via our 147.63/03 repeater (and we have the Thursday night Bulletin and Information Sessions for that);

   b. Printed notices made available at our local ham stores;

   c. Newspapers and/or announcements at our Club meetings.

However, we do have a problem: All Morse Code tests and the Advanced and Extra class elements 4A and 4B can only be administered by teams of Extra class amateurs. So while teams of three Advanced class VEs can administer the Element 3 written, it will still take another team of three Extra class VEs to administer the 13 WPM code test.

As of this writing we have six Extra class and five Advanced class member VEs. That should be enough to properly do the job, but until the FCC allows the Advanced class members to administer the very test that they themselves have passed (the Morse code test at 13 WPM), I think we will have a bit of a problem. The answer, of course, is more Extra class volunteers, however that will be another problem we will have to face down the road.

We look forward to serving the Amateur Society, and I'm hopeful that our program will be in full swing by April of 1985.

BIKE-A-THON

The following letter was received by the club:

"We appreciated your efforts for this year's Freedom Valley Bike-a-thon. We plan to do it again on May 19th (the Sunday before Memorial Day weekend).

"Thanks" for this project is quite appropriate at this time. George Washington ordered his army to pause in early December (just before entering winter encampment at Valley Forge), and hold the very first day of national thanksgiving.

"Montgomery County is proceeding with the design work for the entire remaining section of the bikeway. We think we have enough money for all but a little less than three miles at the very end. Maybe, if we have a great event, we'll raise enough to get those built as well! In any case, we should see something built in the next spring/summer period.

"Thanks again for all the help from Phil-Mont Mobile Radio Club. With the help from so many wonderful people and groups, we look forward to the completion of the Bikeway."

Sincerely,

Jim Castellan, Cochair

**** UPDATE ****

Too bad you missed last month's program about the Olympic Torch Run. Many excellent comments were heard. It was a top quality presentation, professionally done, complete with sound system. Grady and Hurst couldn't have done it better! --

February 4, General Meeting program:

THE VOLUNTEER FIRE SERVICE A look at the apparatus, communications and training of today's modern fire department, presented by our own VEEP, Rick Spencer, N3DHI.

MARK YOUR CALENDAR NOW! Stag Night will again be held at The Picket Post on April 17th. More details next month.

MINUTES
December 1984
DIRECTORS' MEETING

KB3IV, our 'Lame Duck' President, opened the last meeting of 1984 and his Reign, held at the home of W3AA, at 8:26 P.M., on Wed. December 12th. In attendance were: W3's GQD, IIN, IIM, UY, PST, ZPP, GIF, B8B, & K3GNM.

The minutes of the December General Meeting were approved as read. W3IIN gave her last (phew) Treasurer's Report for the year and hopefully of her life. There was a short recap of the year's expenses and all were approved. (Sigh of relief)

KB3IV thanked W3ZPP for his work as chairman of the awards committee on such short notice, and the committee for their excellent selection of 1984's award recipients.

Ed then read a letter from Tom Powell, K3YPO, thanking Phil-Mont and W3TKQ for their participation in the IEEE's Centennial Celebration. He also read a letter of thanks form Dr. Ann G. Waiters, Principal of the School for International Affairs, sent to the Franklin Institute Science Museum, for the fine exhibit of amateur radio which was visited by Dr. Waiters' senior communications class on November 7, 1984.

W3PST reported he was out of paper to print the Blurb. At the present time, WB3CMM is doing the actual printing of the Blurb, but may not be able to continue for all of 1985, and Woody asked for anyone that has the equipment to do the job, to PLEASE step forward and be recognized. Woody also thanked WB3KOJ and W3IIM for their contributions to the Blurb, which are always camera ready and easy to handle. He also asked any member who had any gossip, event or idea that Sam could use in Sam's Corner, to get in touch with Sam by sending him a post card or letter with the information. (Sam's address is in the Directory.)

KB3IV said that he had talked with W3PWG about W3TKQ's future and the latest was that TKQ would be moved sometime in 1985, but no one seems to be too sure just where its final resting place will be. There is supposed to be a Biochemical exhibit going where TKQ is now. It was suggested by W3IIM that we make contact with the powers-that-be at the Institute and try to find out just what the status of TKQ will be before the move is made and not wait until after the fact. Ed suggested that AK2I make an open invitation on the Thursday net to anyone that is interested to come down and operate TKQ. We NEED more people to operate the station, as Rollie, et al, have other duties to perform and don't have much time for operation.

Ed then gave a quick demo of the new synthesized repeater and Auto Patch on 147.165, at which time W3B8B not only blew smoke from his pipe, but from his ears as well. (So much for a synthesized repeater.) At that point, feeling that discretion was the better part of valor, KB3IV thanked all the officers and directors who had helped him during the past year and adjourned the meeting at 10:10 P.M. Thanks to Hal and Marion for their gracious hospitality and all the goodies.

MINUTES
January 1985
GENERAL MEETING

KB3IV opened the last meeting of his Reign, the first of the new year and the 421st General Meeting of Phil-Mont Mobile Radio Club, at 8:10 P.M. on January 7th. As his last official act of office, he turned the President's Gavel over to our new President, W3SRU.

Gil then officially reopened the 421st Meeting by thanking Ed and all the previous officers for their work during 1984, and a standing ovation was given to our outgoing President.

Our new secretary Jinny, W3IIN, read the minutes for the December Directors' meeting which were approved as read. KB3IV our new treasurer, (this man doesn't know when to quit!) read the Treasurer's Report, (Just the way IIN wrote it), and it was approved.

Once again W3VVS reported "the members outnumbered the visitors", with 28 members (is that all?) and 4 visitors attending. Paul introduced: Joe Alvarez, K2KMO; Jim Metzger, KA3HWD; Charlie Kozman, WB2NQV; and Marilyn Roeshman, XYL of W3LKI. (Congratulations to Ben and Marilyn on their recent marriage.)

Gil made the following corrections and additions to the following committee appointments. Certificates and Awards: K3KUD will not be able to chair this committee, but will still serve on it. A new chairperson will be announced at a later date. W3AWH was a misprint and should have been W3AWG.
W3TKQ: WA3GOV will be added to that committee.

W3PST announced that W3IIM will be substitute Blurb editor and printer for the February issue and to get all information to him by the Mid-Month meeting, Jan. 16th.

W3B8B reported that the repeater antenna may go up this Saturday, weather permitting. He also asked if anyone knows of any other repeater in the Phila. area that is having the same noise problem, to please let him know about it.

WA3GOV gave a short update of the activities at N.E. High. He is still in need of books and any other equipment that can be used to help him with the Amateur Radio students at North East.

N3DHI, our new V.P. and youngest officer, introduced Jim Metzger, KA3HWD and Charlie Kozman, WB2NQV who gave a very enjoyable talk and slide presentation on the 1984 Olympic Torch Run and the part that Amateur Radio took in it.

The meeting was adjourned at 9:26P.M. and refreshments were served.

ORANGE SQUEEZIN'S

by W3AA (Our Southern Reporter)

The Mainliner's schedule has been very active on 20 meter SSB at 11:00, 12:30, with another group at 16:30 EST., -- frequency approximately 14.176+MHz

N3WW is very active from Redington Beach - both phone and CW - all bands. He just purchased 160 meter coils for his Butternut. He worked Chuck, W2HSA on 10 meter SSB on the 10 meter Sunday morning check-in. S-5 signals both ways.

Walter, W4NUI, our Florida stand-by, is temporarily off the air awaiting repairs for his Kenwood 930. I believe he has ordered a back-up Kenwood 430, so he should be back on the net shortly.

Bill, W3YHV, has been spending time in Fort DeSoto and has a big signal here in Madeira Beach. 'YHV, 'WW, myself and our XYLs spent an enjoyable New Year's eve together.

W3UQ and W3FUW can't be copied here at Madeira Beach, so I don't hear from them except through relays.

Jack, W3PXW, will be heading South shortly at which time we will have a big get together with whomever happens to be in the area at that time.

Some of the good, strong, active Mainliners copied down here are (#1) N3ADI; W3PXW; W3SGR; W3ADV; K3BB; W3BBB; W3GIF; W3BFH; W3BGR; K3GNM. (This is done from memory so I'm sure I left out many other calls that do get on from time to time.

That's all for now. More detailed and accurate information next time!

SNOW BIRD REPEATERS

From BOB, WA3INW, his list of the best repeaters along I-95 South.

Richmond, VA.	146.88, 146.94
Raleigh, NC.	146.88
Fayetteville, SC.	147.33
Dillon, SC.	146.745 (Voice keyed)
Walterboro, SC.	146.91

06- P. C. MARRUCHELLA - WB3EKK
07- LOU ANDREWS (XYL W3IRS)
10- SHARON MASARSKY (XYL KB3IV)
11- JERRY RUSSELL - K3JR
13- FRANCIS E. MITHCELL - K3DSM
14- KAY RUSSELL (XYL K3JR)
16- VIRGINIA ZIEGLER (XYL WB2SZF)
17- SAMUEL C. SMITH, JR - K3GBA
18- DR. LESTER W. BURKET - W3HQJ
- MARILYN ROESHMAN (XYL W3LKI)
-WALT LAFORET - WA3VCY
25- LYNN BAER - AB3N
28- ROGER N. COX - K3TYB
- ROBERT M. LACHMAN - W3UQ
*******HAPPY BIRTHDAY*******

RENEW NOW

KB3IV & W3RM, YOUR LICENSES EXPIRE THIS MONTH. THE NEW ONES ARE GOOD FOR 10 YEARS.

WEDDING BELLS

CONGRATULATIONS TO BEN (W3LKI) AND MARILYN ROESHMAN WHO WERE MARRIED IN DECEMBER...BEST WISHES TO BOTH OF YOU.

LAST CHANCE

IF YOU HAVEN'T PAID YOUR 1985 P.M.R.C. DUES AS YET, PLEASE DO IT NOW; AND REMEMBER TO CHECK THE DIRECTORY INFORMATION ATTACHED TO THIS BLURB. SEND DUES AND FORM TO KB3IV...DON'T LET THIS BE YOUR LAST BLURB!

...DE WB3KOJ

OLD BUSINESS

THE BLURB
15 YEARS AGO
FEB. 1970

This month's program will be: A 6 Meter Repeater - a slide and oral presentation by Ed. Kushner, W3HKZ of WCAU.

Heard on Channel 1 recently:

WA3KLR has used W3VVS's equipment more, since he got his General license, than VVS did in the past 10 years.

QQH and VVS operating 52.525 mcs mobile, checked out possible interference to Willow Grove Second Alarmers' communication set-up.

The modified ERCO transmitter - AM, 140 watts output, audio compression, etc. donated by Bell Telephone through ADV will soon become the output transmitter of the Phil-Mont repeater.

WA3KLR and Rick Spencer have used QQH's gear more than he will in the next 11 years.

We understand that the "Northern Reporter" is addicted to Southern Comfort.

W3WXC received his private pilot's license in December.

There were 5 Moores present at this month's meeting, including 3 Roberts!

excerpted by W3IIM

NOTES ON THE REPEATER

W3GQD's winter project (when he's not working overtime) is to build a new amplifier for our repeater. Parts donated by Roy Kenworthy, W3HNP. Specs: 150 watts output for approximately 300+ watts ERP.

The antenna raising committee is patiently awaiting good conditions for their next run up the ladder to replace our present IsoPole with a 5.6 db Station Master. All of the members living in the "fringe areas" are anxiously looking forward to the improvements.

Our technical snifters think they've located the offending transmitter (the Grunge) that's been disrupting our repeater. Other repeaters, and even the public service bands, have been affected. -- Stay tuned.

Rick, N3DHI recently completed constructing a deviation meter which he will shortly be using to fine-tune the repeater and its controls.

OLD BUSINESS

THE BLURB
30 YEARS AGO
FEB. 1955

(This issue sports a 3 cent stamp).

New members: W3YFV; W3FUS.

The frequency selected for club operation on 15 meters is 21.250 ... W3D$G is handling the 10 on 10 net these days ...W3HQJ is busy building an intercom for the two Phil-Mont 10 meter channels. The equipment will include a crystal controlled receiver ... W3VCE has a German Ford. You editor didn't know there was such an animal ... W3UVL had a nice antenna installation job compliments of W3QQH and W3VVS on New Year's eve.

With a little fooling around PXY could get on 160. Can anyone else get on mobile so we can evaluate that band for possible activities? W3VVS is already on at home, but we need some mobiles ... W3UKJ has been doing a very fine job as alternate net control. She objects to some of the gang calling her a young man!

We received a request from CQ magazine to reprint last month's technical article ... W2ZI writes to remind us of the Tenth Annual Old Timer's Night in the Grand Ballroom of the Stacy-Trent Hotel, Trenton. This is a stag affair sponsored by the Delaware Valley Radio Association. Turkey dinner for $5.00 in advance, $6.00 at the door.

This time of the year is a bit of a lull in our activities. Peggy, Mrs. W3NIP, and Eleanor, Mrs W3IW, have been agitating for a skating party out at Earle's Lake in Newtown Square.

exerpted by W3IIM

LET'S KEEP UP THE TRADITION

Volunteers are needed to help run the 10m AM net at 10:AM on Sundays. For years, Sam, K3GBA, has faithfully continued the original 10-On-10 Net almost every week, but since his antennas came askew he hasn't been able to keep up the tradition. Please contact our net control committee chairperson, WB3CMM if you would like to pitch in to keep an old tradition alive.

... and from the JUMP seat ...

your guest Editor, W3IIM

It sure helps one's appreciation level when filling in for someone else in their official capacity. If anyone thinks that this job that Woody does each and every month is easy, then YOU try it! By the time I've finished, I'll have spent at least two FULL days (an entire weekend) preparing this issue - not counting the delays caused by the computer breakdown on Super Sunday morning. (All of the articles entered on Saturday were still safely stored on the hard disk -- which was inoperative on Sunday.)

Since Jinny and I've been club members we have regularly heard that Sam appreciates all suggestions for Blurb cover topics. Before Woody's sudden departure for the Sunny South (he received an offer he couldn't refuse), he gave me Sam's private phone number suggesting that Sam would appreciate a call. The very next day I received, in the mail, Sam's covers for February and March - both of which were supurb in every respect but one -- they didn't reflect what was happening in Phil-Mont.

Following Woody's suggestion, I called Sam and discussed with him an idea for this issue. In just a few days I received the cover which you have already enjoyed. I really appreciate Sam's willingness to send another cover on such short notice. Even though he's retired, he does keep very busy. The one thing which really shocked me in our conversation was that Sam said that he's only had ONE cover suggestion in the past year! We'll surely have to do something about that!

As some of you know, the Board of Directors has been wrestling with the rising costs of printing and mailing the Blurb each month. I'm sure that the subject will dominate the budget/audit committee meeting again this year. After all, the Blurb expenses represent at least 2/3 of our annual dues revenues.

Fortunately, WB3CMM has been kind enough to do the printing recently, which has saved the club much expense. The next greatest expense is postage, which, as we all know, will be going up again this month. Woody has asked that other people with access to copying/printing equipment volunteer to print the Blurb one time each year. If we spread the load, no one person will be unduly burdened.

Along these lines we are also trying to save paper costs, and to this end we are attempting to use smaller type, wherever possible, to reduce the number of pages required.

The opportunity to be guest editor this month has certainly been eye-opening for me. It's given me the chance to use word processing to the highest degree yet seen in any Blurb issue (if I can ever get all those articles off of the hard disk) - but it also required that most contributions be retyped rather than just "cut and pasted".

I see now why Woody's always pleading for articles, etc. Very little input comes spontaneously. A phone call or two worked wonders this month, and my thanks to all contributors, spontaneous or prodded!

We're all very busy in our day to day tasks, but remember, YOUR Blurb is only as good as the input that the editor receives! Nuf sed.

Last, but not least, a tip o' the hat to the Loyal Blurb Folders whose unseen contribution goes on each and every month. How'd you like to lick 150 stamps, and stick 150 mailing labels? Lets see -- 35 years times 12 issues times 150 stamps ----. Pitttuuuie.

This issue may very well be unique in more than one way, come to think of it. I thought that since Sam was so gracious to make a second cover (at the last minute), it would only be right and proper to share his original with you, too! I hope that clears up any confusion that you might have had when turning this page. I'll also be able to tell who hasn't read this article by the comments I receive! ("Read your Blurb", but please read ALL of it!)

Wow, being editor draws out the ragchewer in one, doesn't it?

Hurry back Woody!

Jinny, thanks for your help at press time.

LIFETIME RADIOTELEPHONE CERTIFICATES AVAILABLE

From the "ARRL Letter" Jan. 3, 1985

In a December 21, 1984 Public Notice, the FCC announced that a special lifetime General Radiotelephone Operator License Certificate will be available in 1985 for anyone holding a First Class, Second Class or General Radiotelephone Operator License issued or renewed between January 1, 1979 and June 14, 1984. The Commission will eventually discontinue issuing diploma-form General Radiotelephone Licenses and replace them with a card-form lifetime license. Certain license holders are being offered an opportunity to obtain a diploma-form lifetime license.

If yuor license was issued before January 1, 1979 and has not been renewed since, do not apply for the special certificate. You may, however, renew your license within five years of its expiration date by submitting FCC Form 756 to a Commission Field Office.

If your license was initially issued or renewed after June 14, 1984, do not apply. Your license is already a lifetime certificate.

To receive your special lifetime license certificate, you must send your last license, whether it was a renewal or an initial license. Include your name as it appears on your license, your date of birth and your license number. Write the words "Lifetime License" above the Field Office's address. If your present license has an endorsement, you must submit a copy of that license with your request.

The Commission asks that you enclose a SASE with your certificate request. The SASE should be at least 4 1/8 by 9 1/2 inches with the appropriate first-class postage. If you want your certificate delivered unfolded, enclose a 9 1/2 by 12 inch SASE.
